### october is domestic violence awareness month

Approximately 15.5 million children are exposed to domestic violence every year. Approximately 37% of women seeking injury related treatment in hospital emergency rooms were there because of injuries inflicted by a current or former spouse or partner. Staying at a shelter or working with a domestic violence advocate significantly reduces the likelihood that a victim will be abused again and improves the victim's quality of life.

The 24-hour crisis line is 262-542-3828.
